**AMENDMENT NO. 1 TO
“SWISS VALLEY ESTATES-2ND ADDITION-OUTLOT A”
HIGHLAND, IL
SUBDIVISION RESTRICTIONS INDENTURE**

WHEREAS, Stonemark Developments, LLC (hereinafter referred to as the “Owner”) as of the date of this Amendment, is the owner of one or more of the lots in “Swiss Valley Estates-2nd Addition”, a subdivision of the County of Madison, as per plat thereof recorded on the 1st day of December, 2006 in Plat Cabinet 65 on Page 117 as Document No. 2006R62956 at the Recorder’s Office of Madison County, Illinois (hereinafter referred to as the “Subdivision”); and

WHEREAS, Owner has heretofore executed a Subdivision Restrictions Indenture for Outlot A of the Subdivision dated March 20, 2006, and recorded at the Madison County, Illinois Recorder’s Office on March 23, 2007 as Document No. 2007R14979 (hereinafter referred to as the “Restrictions Indenture”); and

WHEREAS, Owner desires to amend the Restrictions Indenture pursuant to its rights under Section 4 thereof.

NOW, THEREFORE, in consideration of the premises and the mutual advantages to accrue to Owner and other owners of lots in the Subdivision, Owner hereby amends the Restrictions Indenture as follows:

1. The following is added to the Restrictions Indenture:

No lot may have a solar energy system as defined in 765 ILCS 165/10 without approval by Stonemark Developments LLC and the Homeowners Association pursuant to the terms and provisions of the Restrictions Indenture, and subject to the energy policy statement attached hereto as Exhibit A and incorporated herein by reference. Wind energy collection, rainwater collection, and composting systems are not allowed on any lot.

UR

2. Except as modified herein, the Restrictions Indenture for the Subdivision are confirmed and ratified in every other respect.

EXHIBIT A
ENERGY POLICY STATEMENT

1. This energy policy statement is made pursuant to 765 ILCS 165/20 and sets forth policy concerning solar energy systems (“Systems”) as defined in 765 ILCS 165/10.
2. Such Systems may only be installed with the advance written approval of Stonemark Developments, LLC (“Stonemark”) and the Homeowners Association (the “Association”), and subject to this policy.
3. Any such System must be installed on land or structures owned by a lot owner. No portion of the System may encroach on adjacent properties or common areas.
4. Such Systems may only be installed on the following locations:
 - a. on the roof of the main residential dwelling; or
 - b. on the roof of any other approved structure; or
 - c. within a fenced yard or patio.
5. For Systems mounted on a roof, the System must:
 - a. have no portion of the System higher than the roof section to which it is attached; and
 - b. have no portion of the System extend beyond the perimeter boundary of the roof section to which it attached; and
 - c. conform to the slope of the roof; and
 - d. be aligned so the top edge of the System is parallel to the roof ridge line for the roof section to which it is attached; and
 - e. have a frame, brackets and visible piping or wiring that is a color to match the roof shingles or a silver, bronze or black tone commonly available in the marketplace; and
 - f. be located in a position on the roof which is least visible from any street or common area and within an orientation to the south or within 45 degrees east or west of due south.
6. For Systems located in a fenced yard or patio, no portion of the System may extend above the top of the fence. If the fence is not a solid fence which blocks the view of the System, Stonemark and the Association may require the System

be placed in a location behind a structure or otherwise require visual screening. Stonemark and the Association may consider installation of Systems on properties without a fenced yard if there is adequate screening from public view from any street or common area.

7. All Systems must be installed in compliance with manufacturer's instruction and in a manner which does not void material warranties. Licensed craftsmen must be used if required by law. Permits must be obtained if required by law.
8. Installed Systems may not:
 - a. threaten public health or safety; or
 - b. violate any law; or
 - c. substantially interfere with the use and enjoyment of land by causing unreasonable discomfort or annoyance to any adjoining property owner.
9. All Systems must be maintained in good repair. Unused or inoperable Systems must be removed.
10. Wind energy collection, rainwater collection, and composting systems are not allowed.
